

Module 3 Introduction to Paper and Web Printing

Dates: 16 February 2010
27 April 2010
14 September 2010

Location: The Link Room
Antalis Ltd
Gateway House
Interlink Way West
Coalville, Leicestershire LE67 1LE

Trainer: Neil Gordon

Suitable for:

Print buyers, specifiers, designers and marketers.

Learning outcomes:

On completion of this unit, delegates will be able to:

- Describe the gravure and web offset printing processes and their applications.
- Describe the different prepress processes for both web offset and gravure printing.
- Identify a suitable range of substrates for web offset and gravure printing, and how choice of substrate can affect the printed result.
- Identify the most common production problems related to the web printing processes.
